

Product sheet
Platinum Controllers

Benefits

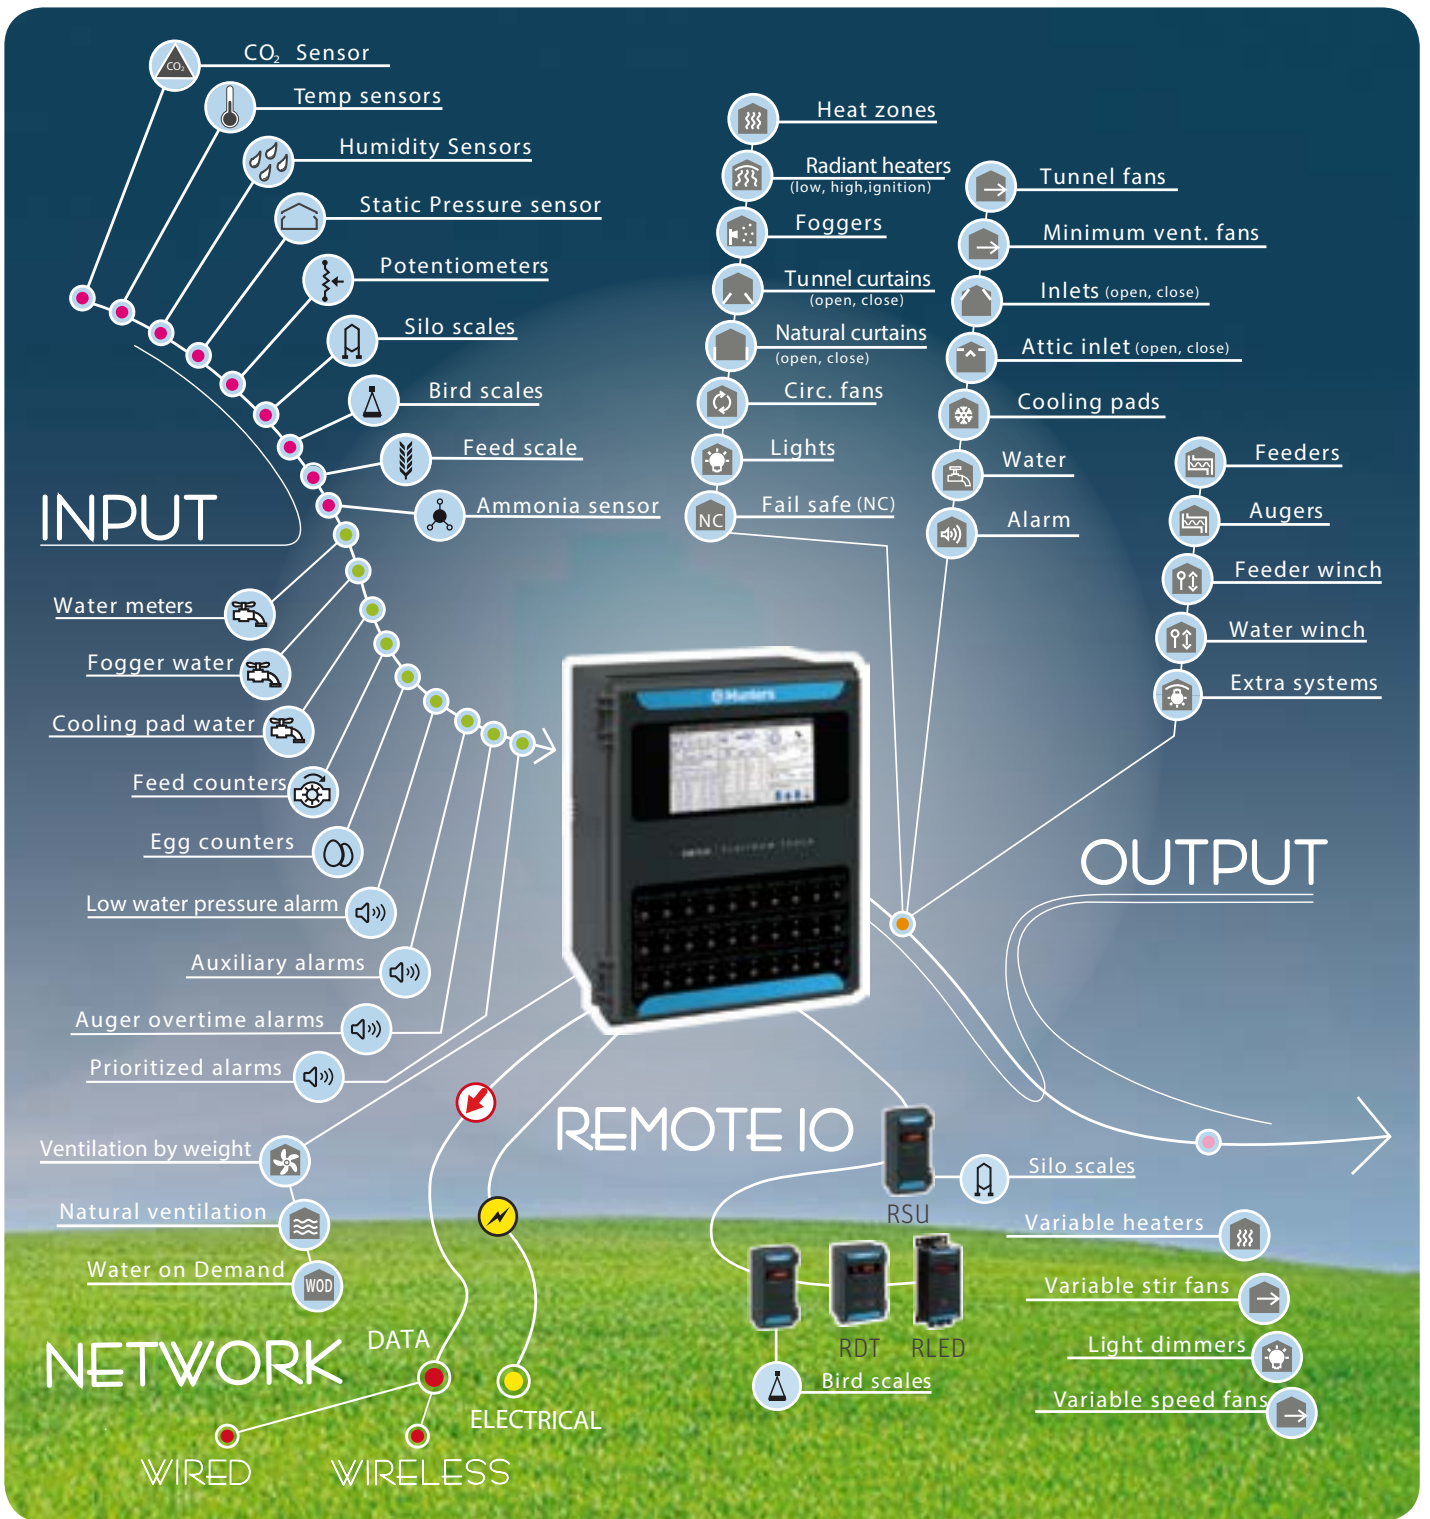

- Compatible with Farm Premium family legacy software programs
- Modular architecture enables a high level of flexibility in system design
- Expansion boxes support input/output devices reducing the need for central controllers.
- Improved software capabilities support an unlimited number of devices, including scales, meters, digital thermostats & more.
- Extended longevity of hardware components
- Minimal internal heat improves durability in hot climates
- Reduced electrical noise levels improve signal quality
- SD cards enable simple saving & loading of settings
- Touch's user friendly, large screen is easy to use and simplifies configuration, monitoring & control over your farm
- Panel Mounts reduce costs for farmers wanting to install their controllers in this manner

Platinum Controllers

The Munters series of **Platinum Controllers** provide poultry and livestock farmers with the most advanced farm management package available on the market today. Providing complete control over climate, environmental conditions, feed, and water management Platinum Controllers enable farmers to produce healthier, larger birds while saving energy, feed, and time. In addition, Platinum comes in a variety of models, enabling you to install the model that fits your exact requirements.

- **Platinum Pro's** upgraded functionality is suitable for any structure, from standard to mega houses. Platinum Pro accomplishes this by supporting management over multiple expansion units. Pro units support up to 30 or 50 relays.
- **Platinum Touch** provides all the functionality of the Platinum Pro, along with a touch screen that provides an intuitive, easy-to-use interface. The touch screen displays critical data in one screen, is intuitive, and simplifies the setup. Touch units support up to 30 relays.
- As an option, **Panel Mount** editions can be installed directly into an electrical cabinet. Both Pro and Touch Panel Mount editions support up to 30 or 50 relays.
