Adj. EBITA margin*

13.6

Number of employees

~5,000

Business critical solutions to a broad range of industries

Dry air for battery production

Clean Technology solutions for a healthier planet

Constant humidity solutions for the pharmaceutical industry

Climate & hygiene control for the food production industry

Leading supplier of Rotors & other components

Service offering to a broad range of customers

Distribution net sales Q1 2024

Indoor climate solutions for agriculture and greenhouses

Sensors & Controllers for farmers

Software solutions for food producers

Data Center cooling solutions

Core technologies – dehumidification and evaporative cooling

Core Technologies

Evaporative cooling pads

Rotors with desiccant drying wheel

AirTech offering

Dehumidifiers

Climate systems

FoodTech offering

High-efficiency fans

Air inlets

DataCenter Technologies offering

Packaged air economizers

Chilled Water CRAH¹

SyCool Split

Service

Controllers & sensors

Software

The above products are examples of products in the Munters offering
¹CRAH – Computer Room Air Handler

Progression towards our financial targets

* Organic growth p.a. over a business cycle

** Average OWC (Operating Working Capital) last twelve months as % of net sales for the same period

Advancement towards our sustainability goals

End of March 2024

Goal

Scope 1 & 2	Renewable electricity, factories	78% (79)
	Energy efficiency, factories ¹	0.57 (0.51)
	Recycling rate (LTM)	47% (49)

Net zero emissions by 2030

Health & Safety	TRIR ² (LTM)	1.4 (2.0)
-----------------	-------------------------	-----------

Zero accidents

Diversity	% of women in workforce	22% (23)
	% of women in salary-setting positions	22% (22)

30% women leaders by 2025

¹ Electricity in relation to production output,
²Total Recordable Incident rate

Agenda

- Introduction
- Quarterly highlights
- AirTech
- Data Center Technologies
- FoodTech
- Appendix

High demand and profitable growth

Continued high demand...

Q1 Order intake, +32% (+29% org)

- strong in all business areas
- AT good demand, esp. battery EMEA
- DCT solid development in Americas
- FT positive, mainly Americas & EMEA

Q1: Order backlog, +10%

- mainly large orders in DCT & AT, to be delivered throughout 2025

... drives stable net sales and...

Q1: Net sales, +11% (+7% org)

- DCT - good deliveries
- FT - Climate solutions Americas strong, and very strong Digital solutions US
- AT - decreased. Growth mainly in Americas, offset by weaker APAC & EMEA

Book-to-bill Q1: 0.95

... enhanced profitability

Adj. EBITA-margin, Q1 14.1%

- + solid growth, net price increases and strong operational delivery
- accelerated investments to create a platform for long-term sustainable growth in all business areas
- = resulting in margin improvements and good cashflow

Solid order backlog – large orders supportive into 2025

x Order received
● Expected delivery period

Enhanced profitability, good cash flow & improved leverage

- **Net Sales** increased;
 - very strong growth in DCT
 - strong growth in both segments in FT
- **Adj. EBITA margin** improved;
 - mainly increased sales and price increases in DCT & FT, efficiency improvement efforts in all business areas
- Improved **cash flow**;
 - improved earnings & reduction in working capital, mainly driven by customer advances in DCT Americas
- **Net debt** increased:
 - mainly as a result of acquisitions financed through debt during the recent year

	MSEK	Q1 2024	Q1 2023	Change (%)		
				Organic growth	Structural growth*	Currency effects
Order intake		3,368	2,544	29	6	-2
Order backlog		11,812	10,783			
Net sales		3,538	3,175	7	6	-2
Operating profit (EBIT)		412	349			
Adj. EBITA		498	389	25	6	-2
Adj. EBITA-margin		14.1	12.3			
Net income		227	214			
Cash flow from operating activities		553	-168			
OWC/net sales (%) ¹		13.6	12.7			
Net debt		4,557	4,175			
Net debt/Adj. EBITDA ²		2.0	2.7			

¹ Average OWC (Operating Working Capital) last twelve months as % of net sales for the same period

² Last twelve months

* Acquisitions & divestments

Agenda

- Introduction
- Quarterly highlights
- AirTech
- Data Center Technologies
- FoodTech
- Appendix

Global leader in air treatment for industry

Customer segments of order intake

- Battery
- Other Industrial
- Clean Technologies
- Components
- Food processing
- Commercial
- Service

Order intake per region

- Americas
- EMEA
- APAC

Order intake, MSEK

2,255

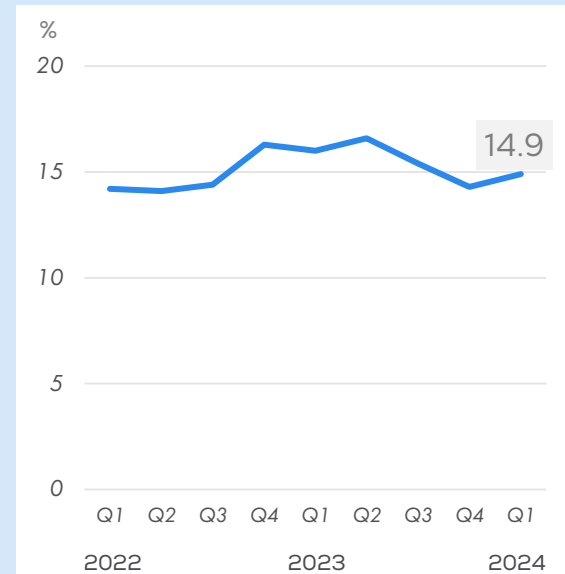

Net sales, MSEK

1,996

Adjusted EBITA margin

14.9%

Financial figures Q1 2024

All segments - stable order intake trends

→ **Order Intake** increased primarily EMEA but also Americas, whereas APAC lower;

- Industrial- good growth especially in EMEA. Battery in EMEA very strong, whereas cont. weak in APAC & Americas
- Commercial – good growth in Americas & APAC (acq. Zeco)
- CT¹- declined, due to strong comparable Q1 2023
- Components – Americas & EMEA good growth, APAC weaker due to lower component replacements in the Chinese battery market
- Service – growth mainly Americas but also EMEA, offset by APAC

→ **Order Backlog** slight decrease

Customer segment	% order intake Q1 2024	Market Outlook *
Industrial	60%	➔
...whereof battery	27%	➔
...whereof food processing	7%	➔
...whereof commercial	9%	➔
...whereof other	18%	➔
Clean Technologies	5%	➔
Service & components	35%	➔
...whereof service	19%	➔
...whereof components**	16%	➔

Q1 - Lower volumes & investments affecting margin

MSEK	Q1 2024	Q1 2023	Change (%)		
			Org.	Struct*	FX
Order intake	2,255	1,686	29	7	-3
Order backlog	3,688	4,341			
Net sales	1,996	2,023	-7	7	-2
Adj. EBITA	296	323	-12	6	-2
Adj. EBITA (%)	14.9	16.0			

- Adj. EBITA margin decreased;
- lower volumes
 - increased investments in sustainability, operational efficiency & innovation
 - + cont. efficiency improvements, slightly offset by lower production utilization rate in EMEA & APAC

Selection of market players - mainly small local players

		Small (<1 BSEK)				Medium (1-2 BSEK)	Large (2-10 BSEK)	Extra Large (>10 BSEK)
Humidity Control Technologies	Dehumidification	AM	AS	AS	AM	AM/AS/EU	AM/AS/EU	AS
		AM/AS	AM	EU/AM	AM	AM	AM	AM
		AM	EU	AS	AS	AS	AS	
		AS	AS	AS	EU			
Clean Technologies	Humidification	AS	AM	AS	EU/AS	EU/AS/AM		
		EU	EU	EU	AM		EU/AS/AM	EU/AS/AM
		EU	AM	AM/AS/EU				

★ A small business within a large company/conglomerate

Solid development in several segments

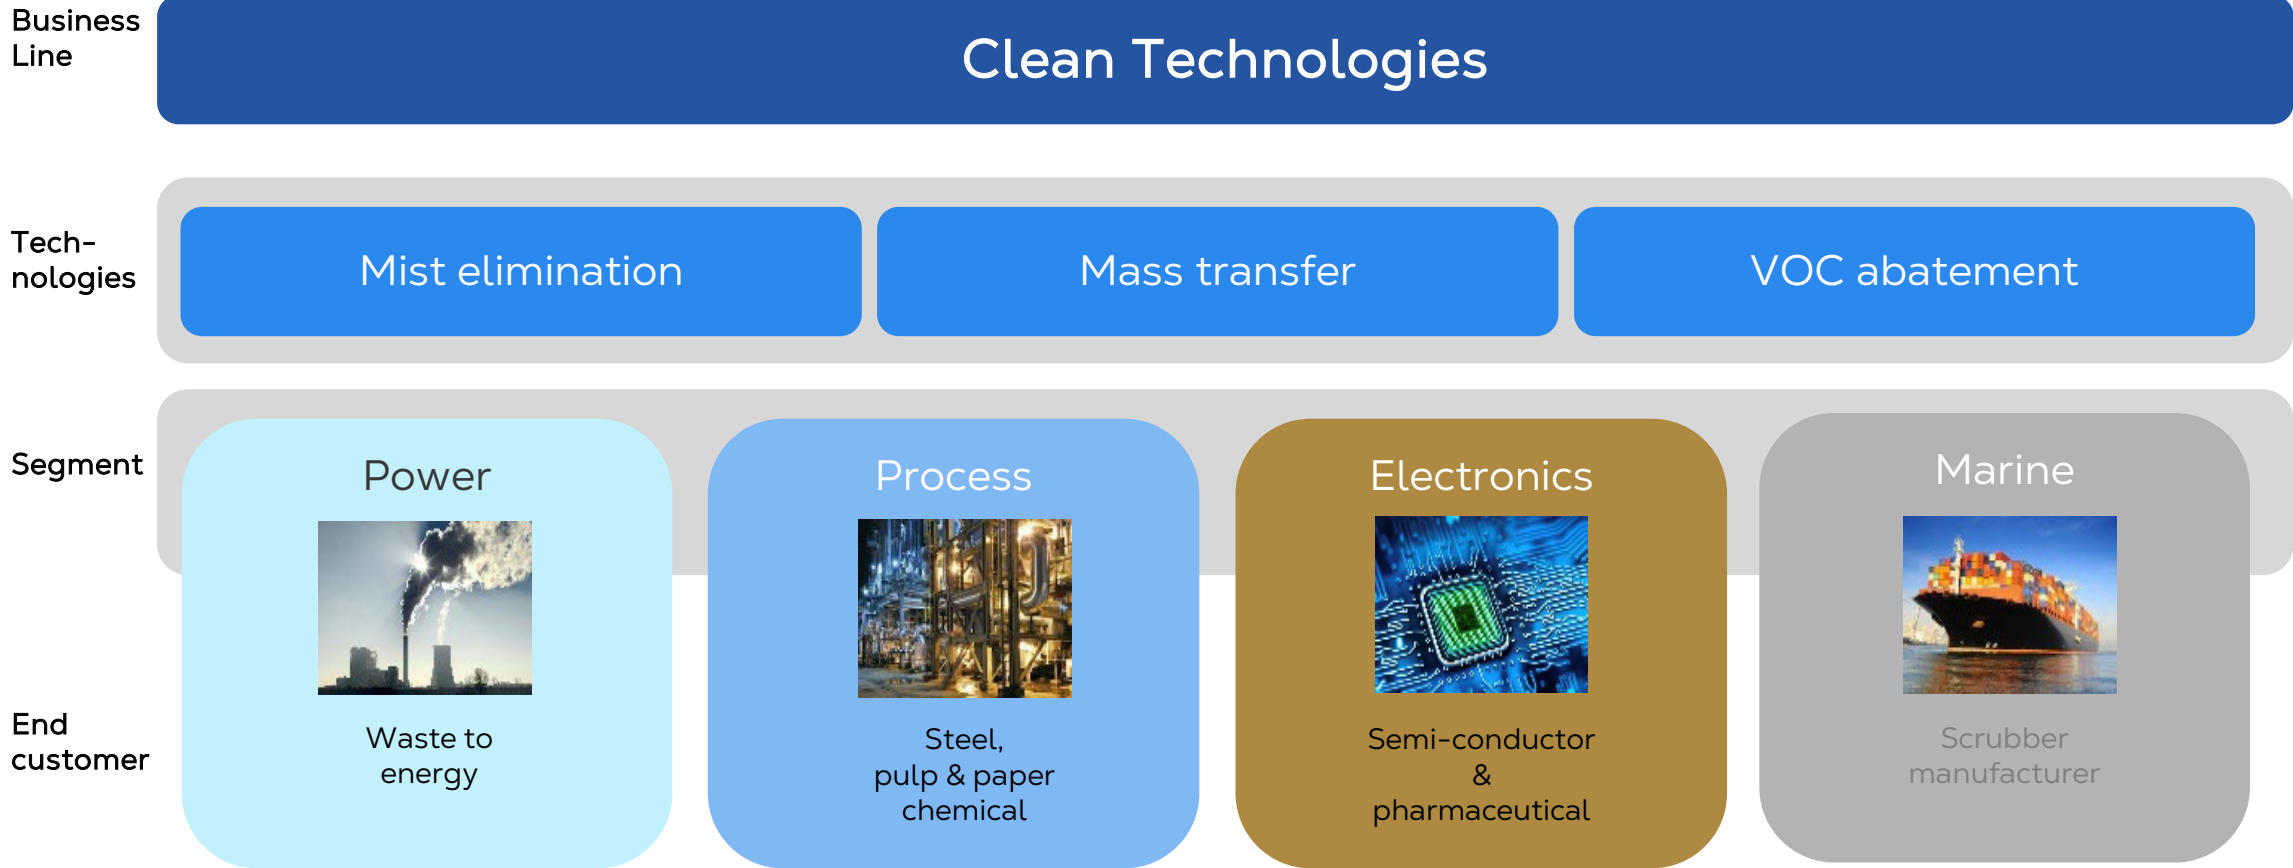

- Variations in large orders i.e., batteries
- Other industrial good growth
- CT steady development
- Commercial increase through Zeco acquisition
- Service & Components stable and growing

*Large orders announced through press releases

Clean Technologies – solutions for a healthier planet

Agenda

- Introduction
- Quarterly highlights
- AirTech
- Data Center Technologies
- FoodTech
- Appendix

Sustainable cooling solutions that facilitate digitization

Data Center Technologies

Customer distribution of order intake

- Hyperscalers
- Colo
- Telco & enterprises

Order intake per region

- Americas
- EMEA

Order intake, MSEK

343

Net sales, MSEK

956

Adjusted EBITA margin

19.0%

Q1 - Increased demand & strengthened order backlog

→ Order Intake increased;

- mainly co-locator segment, Americas
- underlying demand remains very strong

→ Order Backlog increased;

- majority attributable to large orders to be delivered throughout 2025

- **Hyperscalers** – increased activity both for own facilities & colocation leasing. AI driving significant growth, increased need for server space & higher density cooling requirements
- **Colocation** – continued strong demand due to increased build outs and investments, driven by increased leasing demand from hyperscalers
- **Telco & enterprises** – moving away from own facilities, market growth but lower pace

Q1 – Significant profitability increase

MSEK	Q1 2024	Q1 2023	Change (%)		
			Org.	Struct*	FX
Order intake	343	293	17	0	0
Order backlog	7,003	5,564			
Net sales	956	653	47	0	-1
Adj. EBITA	181	82	122	0	-1
Adj. EBITA (%)	19.0	12.6			

→ Adj. EBITA margin significant increase;

- + strong volume growth
- + net price increases
- + high utilization rate in production
- + operational efficiency improvements
- investments in competence and resources expected to increase to capture growth

Order intake & backlog development

Net sales & adj. EBITA development

Market players can be divided into four main categories

The basic steps of cooling and heat rejection

1. DISSIPATION (INSIDE THE SERVER)

Heat sinks, on-board fans or liquid cooling solutions dissipate heat away from the components

2. CAPTURE (INSIDE THE DC)

Heat is captured by air flow, containment, air handlers, or Cooling Distribution Units etc.

3. TRANSFER

Air, water or other refrigerant carries heat away

4. RELEASE (OUTSIDE THE DC)

Outdoor condensers, cooling towers, or heat exchangers release the heat

SyCool Split - How to deal with increased power density

1. **Dissipation** – taking heat from the chip to the air or the liquid
2. **Capture** – heat is captured by the CRAH (air) or the CDU (liquid)
3. **Transfer** – heat energy is transported to the heat rejection equipment
4. **Release** – heat is rejected to atmosphere or to be re-used for another purpose

Digital solutions - Significant SaaS growth

- ARR continued growth - new customers & conversions to our new software solution Amino
- Also, high level of software implementations

*ARR = Recurring Revenue in the quarter multiplied by four

Agenda

- Introduction
- Quarterly highlights
- AirTech
- Data Center Technologies
- FoodTech
- Customer cases & M&A
- Appendix

Enhancing our Clean Technology portfolio

→ Acquisition of Airprotech

- Italian manufacturer of Volatile Organic Compounds (VOC) abatement systems
- Enhances air purification offering and addresses growing demand for abatement services in Europe
- Positions us to offer complete systems and service to our customers, contributing to cleaner air
- Reported net sales of MSEK 330 for FY 2023
- Founded 1995, based near Milan, Italy, 52 employees
- Finalization expected in Q2 2024

Expanding DCT facilities in Ireland to meet the demand

→ DCT Europe – Expansion

- Expansion in Cork, Ireland with the establishment of new facilities with ~11,000m² production and office space
- Initially, around 100 employees will be able to produce the full DCT product range at the site
- Located in the stunning location of Little Island, close to Cork city centre and our current facilities
- Construction underway, scheduled for completion during 2024
- Built for LEED¹ Silver sustainability certification
 - More sustainable construction and operations
 - Enhanced energy and water efficiency
 - Eliminating fossil fuel dependency

Climate solutions – EMEA good recovery in all segments

→ Greenhouse order in EMEA

- EMEA contractor, serving UAE end-users and farms
- Solution offered CELdek evaporative pads & Air circulation fans and air extraction fans
- Munters selected for the strong track record of customer satisfaction during lasting relationships with both contractor and end-user. High satisfaction with installed base of Munters equipment.

Munters CELdek®
Evaporative cooling pad

FORESTS
FOR ALL
FOREVER

Ideal for greenhouses that require high-efficiency cooling

Munters EDC
Air circulation fans

Improving air quality and combating stratification in any greenhouse and poultry application

Digital solutions - Significant SaaS growth

→ Key order in Americas strengthens cloud footprint in poultry

- Large US turkey company, subsidiary of a major food corporation
- Customer experienced challenges with data security, local installation and user friendliness of previous system
- Upgraded to Amino software to move more towards IoT and connected farms

ARR* (mSEK)

*ARR = Recurring Revenue in the quarter multiplied by four

- ARR continued growth - new customers & conversions to our new software solution Amino
- Also, high level of software implementations

New innovative dehumidification system in North America

- Specially developed for low dew point (LPD) applications such as battery producers
 - Ability to maintain dry rooms at continuous low dew points
 - 40% smaller footprint vs. industry standard
 - Available for indoor and outdoor installation
 - Gas, steam or electric reactivation as standard
 - Combined pre- and post-heating and cooling coils for compact design and minimized footprint
 - Standardized cost-effective design
 - Optimized purge cycle provides 30-45% energy savings vs. industry standard purge

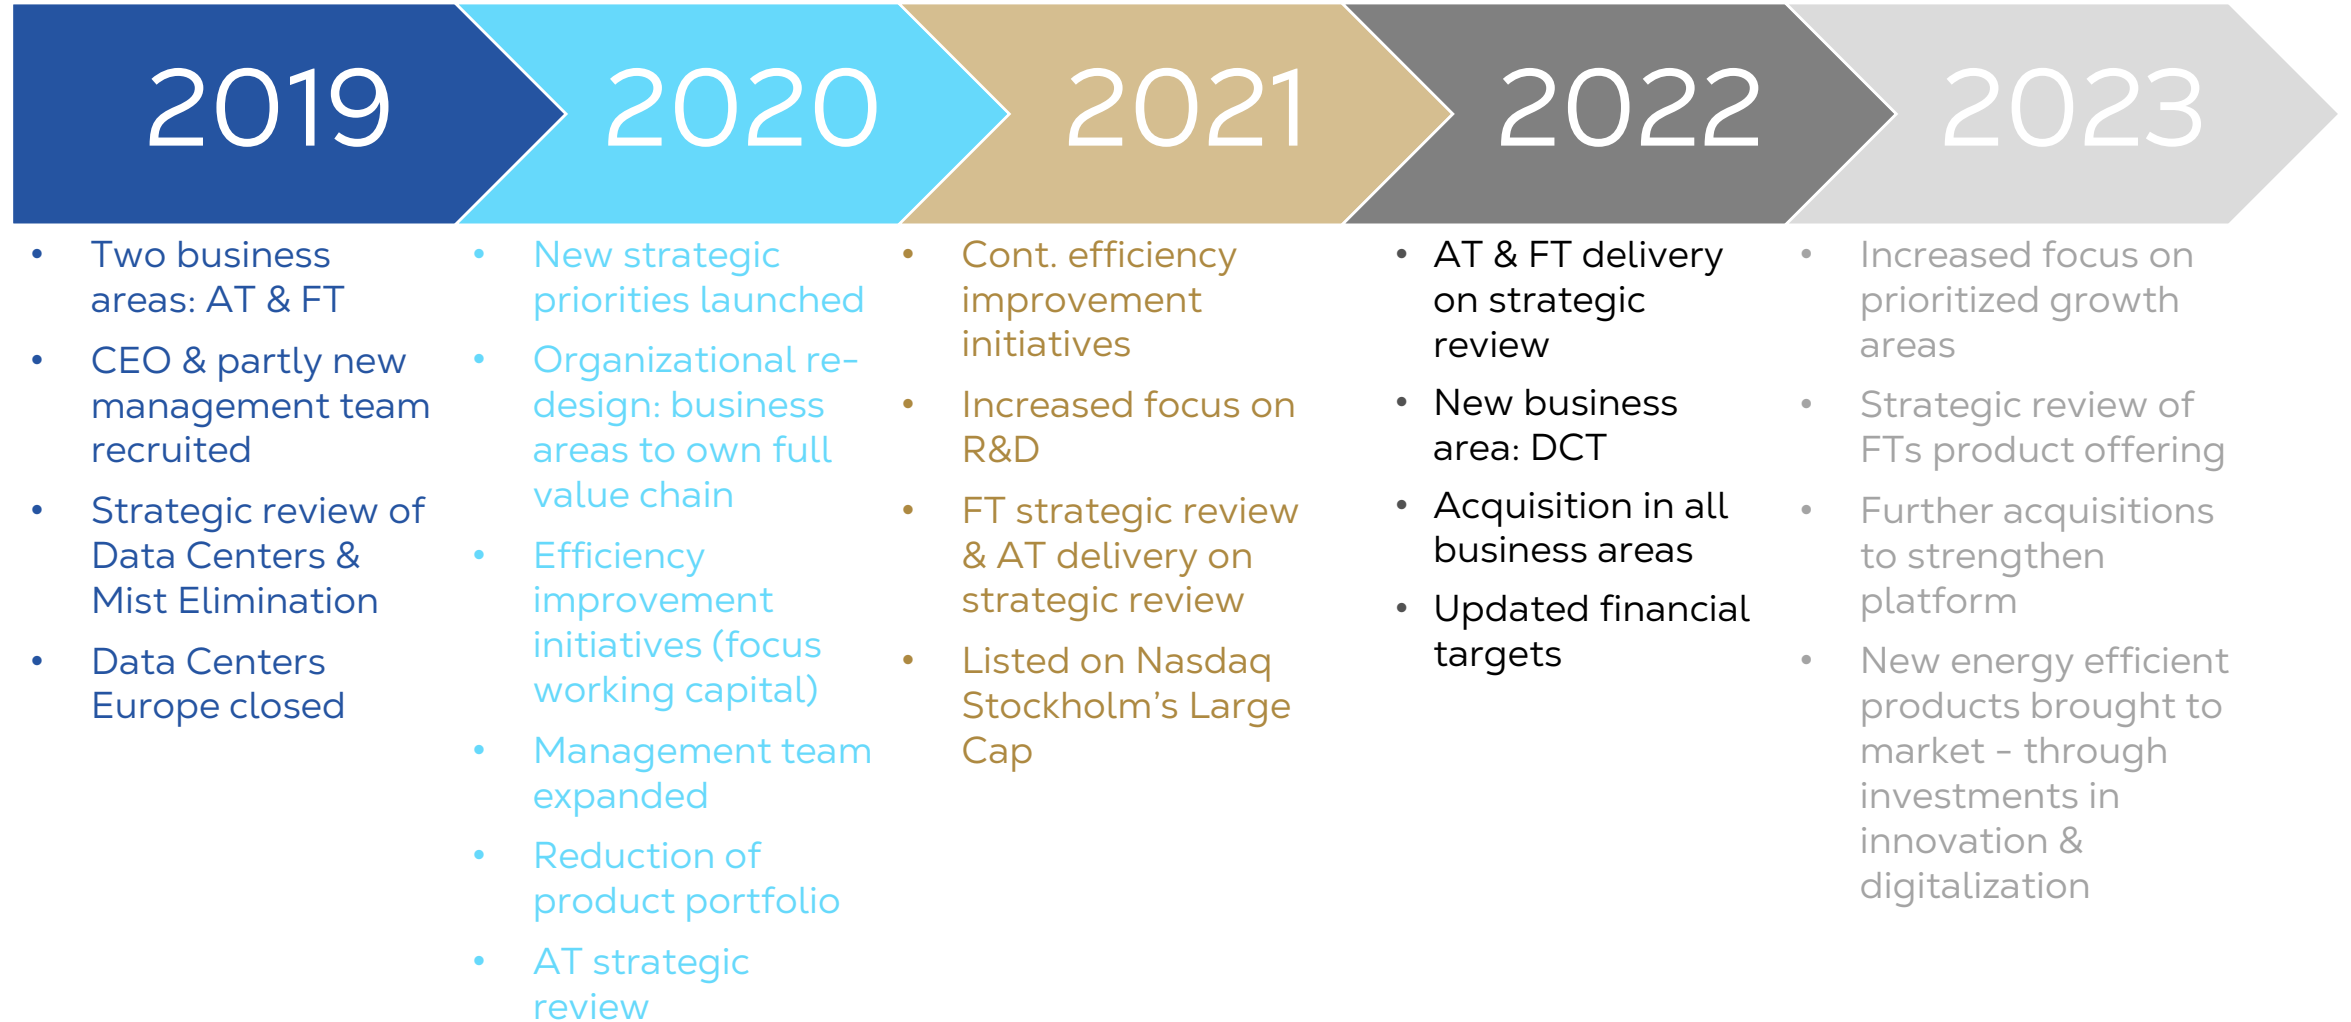

The outer frame for the door is 72" (1.82m)

Appendix

Munters strategic journey continues

Profitable growth and cash flow generation

Group Cash Flow YTD, MSEK

Cash flow from changes in WC

	Q1 2024	Q1 2023
Change in accounts receivable	-167	-19
Change in inventory	-88	-120
Change in accrued income	115	-43
Change in accounts payable	-1	-128
Change in advances from customers	406	-138
Change in other working capital	-49	-65
CF from changes in working capital	215	-513

Strong margin improvement in FoodTech & DCT

Group adj. EBITA margin impact

Q1 2023 adj. EBITA %	12.3
<hr/>	
Volume	++
Net pricing	+
Operational excellence	+
Strategic initiatives	=
<hr/>	
Q1 2024 adj. EBITA %	14.1

Main factors affecting adj. EBITA margin in Q1:

- Strong **volume** increase driven by DCT & FT
- **Net pricing** increases contributed to margin improvement mainly in DCT & FT
- **Operational excellence** improvement in all business areas
- **Strategic initiatives** for scalability in digitization and automation continued

Investing for the future

→ Investments in PPE and intangibles in 2024, to support growth:

- Investments aiming at strengthening competence, upgrade, digitalize & automatize
- AirTech: Amesbury, new major plant in Americas
- DCT: Cork, new plant in Europe

→ Decreased operating working capital

- High level of customer advances in DCT main driver

PPE & Intangibles

Operating working capital

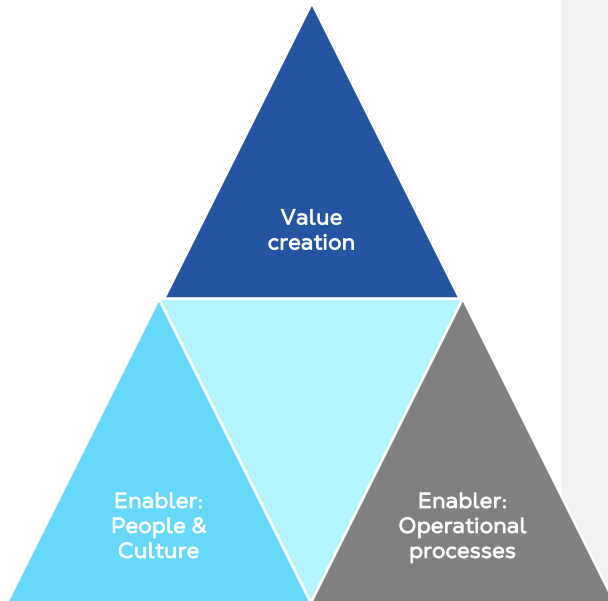

Integration critical to create value

Integration - critical aspect of mergers, with three focus areas:

- Value creation - delivering on acquisition business case
- People and culture - creating a common culture and sense of belonging
- Operational processes - establishing common processes and tools (how we work together)

	Acquisitions	Facts
2023		Net sales: MSEK 330 Employees: 52
		Net sales: MSEK 510 Employees: ~1,000
		Net sales: MSEK 76 Employees: 14
		Net sales: MEUR 3 Employees: 17
		Net sales: MBRL 53 Employees: ~150 (Munters has acquired a 60% share in InoBram)
2022		Net sales: MSEK 125 Employees: 30
		Net sales: MEUR 17 Employees: ~150

Decreased leverage ratio 3 quarters in a row

- **Leverage** ratio decreased mainly driven by increased adj. EBITA
- **Net debt** stable, affected by:
 - acquisitions financed partly by debt during the last 4 quarters
 - increased cash flow from operating earnings

Strong service growth

- Group Q1 2024 – amounted to MSEK 15.0% of total net sales, org. growth +25%, LTM 13.6%.
- AirTech Q1 2024 24%, majority of the groups service net sales (org. growth +22%)
- DCT Q1 2024 – ~5 %, minor service sales as main part of business greenfield installations
- FT 2024 - minor service sales

Not reported as part of service today:

- FoodTech – SaaS (Software-as-a-Service) business

Ambition: Share of service long-term to represent 30% of Group net sales

Service development
% of net sales

AirTech Service Offering

Service Offering DCT

Selection of market players – Munters well positioned for growth

→ An order in DCT generally consists of several equipment deliveries

 Munters

Total market growth and our addressable market

Cooling approximately 10-15% of total DC CAPEX – with a higher price point for liquid cooling due to complexity

MW of cooling for new DC deployments

Growth rate according to industry sources

Source: Market estimates from various sources (as defined in the right graph) & Munters analysis

DC market key trends

AI is creating exponential demands and leading to significant planned investments

Solutions that can deploy in mass scale

Systems that are future proof for high densities, liquid cooling and edge applications

Continued focus on energy efficiency and energy recovery
