

MUNTERS RECEIVE MULTIPLE ORDERS FOR COLOCATION DATA CENTER

Munters has received multiple orders with a combined value of approximately MUSD 63 (approximately MSEK 630). The orders received are from a US based colocation data center company for standard chilled water computer room air handlers (CRAH's). Deliveries are estimated to start in the fourth quarter 2023 and to be finalized in the first quarter 2025.

Munters Group (MTRS), a global leader in energy efficient air treatment and climate control solutions, has received multiple orders with a combined value of approximately MUSD 63 (approximately MSEK 630). The orders received are from a US based colocation data center company for standard chilled water CRAH's, to be deployed at multiple data centers in the US. Deliveries are estimated to begin in the fourth quarter 2023 and to be finalized in the first quarter 2025.

"These orders continue the trend of strong growth in the data center market for Munters. It's the result of a long term and close customer collaboration and a recognition of Munters as a leading partner", says Klas Forsström, President and CEO of Munters.

"Our industry knowledge, flexible and robust design and project support teams all contribute to this customer's continued success. We are honored to receive this sign of continued trust. These orders add to the already increased demand of our expanded portfolio of efficient heat rejection products", says Stefan Aspmann, GVP and President Data Center Technologies.
