# Munters ML270

Desiccant dehumidifier

### Features

- ightarrow Requires minimal floor area
- → Unique plastic rotor casing 100% corrosion resistance
- → Dehumidifies efficient down to -20°C
- ightarrow Dehumidifies to low dewpoint
- → Interchangeable front and back panels – easier to install
- ightarrow Remote monitoring and control

The ML270 desiccant dehumidifier is designed to efficiently dehumidify in low moisture applications. It is equipped with an internally sealed rotor unit.

The rotor casing is constructed of durable thermoset plastic and contains isolated sections that provide a precise balance for dehumidification, reactivation, and heat recovery airflows. Its rugged formed metal frame and access panels are produced from corrosion resistant materials.

The electrical components are mounted on busbars and are constructed of halogen-free plastic. The electrical system is designed for up to 690V and 60°C. A characteristic of the ML Series rotor technology is an extra rotor sector which provides high capacity, while simultaneously recovering heat, thereby effectively reducing the electrical power requirement.

The ML Series dehumidifiers conforms to CE marking specifications, RoHS and to the below EU standards:

- EU 60204-1:2018
- EU 61000-6:2019
- EN IEC 61000-6-3:2021

## Desiccant dehumidifier

#### Dimensions

| A: Width    | 513 mm  |
|-------------|---------|
| B: Depth    | 410 mm  |
| C: Height   | 1010 mm |
| D: Diameter | 160 mm  |
| E: Diameter | 100 mm  |
| Weight      | 58 kg   |

Process air
Dry air
Reactivation air

4. Wet air

### Technical specifications

| Process air   |        |         |
|---|--------|---------|
| Rated airflow   | (m³/h) | 270     |
| Available static pressure                                 | (pa)   | 200     |
| Reactivation air  |        |         |
| Rated airflow   | (m³/h) | 99      |
| Available static pressure                                 | (pa)   | 200     |
| Miscellaneous data  |        |         |
| Operating temperature                                     | (°C)   | -20/+40 |
| Sound power level Lw(A) dB, all inlets and outlets ducted | (A)    | 79      |
| Air filter standard                                       | -      | G3      |
| IEC protective class (unit)                               | -      | IP33    |
| IEC protective class (electrical panel)                   | -      | IP54    |

| Total power voltage & current (amps & phase) |      |      |
|--|------|------|
| Total power                                  | (kW) | 3.06 |
| 220V 3-50Hz                                  | (A)  | 8.5  |
| 220V 3-60Hz                                  | (A)  | 8.5  |
| 230V 3-50Hz                                  | (A)  | 8.2  |
| 230V 3-60Hz                                  | (A)  | 8.1  |
| 380V 3-50Hz                                  | (A)  | 5.0  |
| 380V 3-60Hz                                  | (A)  | 5.0  |
| 400V 3-50Hz                                  | (A)  | 4.7  |
| 415V 3-50Hz                                  | (A)  | 4.6  |
| 440V 3-60Hz                                  | (A)  | 4.3  |
| 460V 3-60Hz                                  | (A)  | 4.1  |
| 480V 3-60Hz                                  | (A)  | 4.0  |
|  |      |      |

### Options

- → Hours run counter (monitors the number of hours the system is operational)
- → Humidity control system with alarm and display (refer to the RH98 product data sheet)
- ightarrow Stainless steel sheet metal casing
- $\rightarrow$  AirC Wireless
- → AirC Connect
