

### FEATURES

- Full control over your farm's controllers
- User-friendly GUI
- Analysis of controller performance

## STAY CONNECTED, STAY ON TOP

Munters Green Comm-Box enables remote access to your Munters Green House Controllers (Green Field, Green Field ECO, and Green Climate). This access includes complete monitoring and control capabilities.

Access to your system is via TeamViewer, a standard industry remote access program available as freeware.

Green Net, an advanced software program used to manage the controllers, comes installed on the Green Comm-Box units. Once the connection to your system is set up, you can take charge of your system from any PC or smartphone equipped with TeamViewer.
