

MUNTERS RECEIVES DATA CENTER COOLING ORDER IN THE US

Munters Group AB (MTRS), a global leader in energy efficient air treatment and climate solutions, has received an order in the US for a value of approximately USDm 25.

Munters has received an order to provide cooling solutions for a Data Center in the US. The total value of the order is approximately USDm 25. Munters will deliver Oasis™ Indirect Evaporative Cooling units and the order is expected to be delivered over the period of April to July 2020.

"We are glad to have received a large order for the delivery of a configured cooling solution for a Data Center client in the US. We worked closely with the client's project team to develop an innovative indirect evaporative cooling solution, both in terms of energy efficiency and water usage, and we look forward to delivering this project," says Michael Gantert, President Data Centers.
